

10.5.4. Cluster Requirements

Each endpoint supporting this device type SHALL include these clusters based on the conformance defined below.

Cluster ID	Cluster Name	Client/Server	Quality	Conformance
0x0504	Channel	Server		O
0x0505	Target Navigator	Server		O
0x0506	Media Playback	Server		O
0x0509	Keypad Input	Server		M
0x050A	Content Launcher	Server		O
0x050C	Application Launcher	Server		M
0x050D	Application Basic	Server		M
0x050E	Account Login	Server		O
0x0510	Content App Observer	Client		ObserverClient

10.5.5. Element Requirements

The table below lists qualities and conformance that override the cluster specification requirements. A blank entry means no change.

Cluster ID	Cluster Name	Element	Name	Constraint	Access	Conformance
0x050C	Application Launcher	Feature	Application-Platform			X

10.5.6. Endpoint Composition

Endpoints with this device type SHALL support Dynamic Endpoint Allocation as specified in the System Model specification.

10.5.7. Disambiguation

When there is more than one sibling endpoint with this device type in a PartsList, disambiguation information SHALL be provided by having a unique value in the ApplicationName attribute of the Application Basic cluster on each of these endpoints.

10.6. Casting Video Client Device Type

This defines conformance to the Casting Video Client device type.

A Casting Video Client is a client that can launch content on a Casting Video Player, for example, a
