

| Cluster ID | Cluster Name         | Client/Server | Quality | Conformance |
|------------|----------------------|---------------|---------|-------------|
| 0x050C     | Application Launcher | Client        |         | O           |
| 0x050D     | Application Basic    | Client        |         | M           |
| 0x050E     | Account Login        | Client        |         | O           |
| 0x050F     | Content Control      | Client        |         | P, O        |
| 0x0510     | Content App Observer | Server        |         | O           |

## 10.7. Video Remote Control Device Type

This defines conformance to the Video Remote Control device type.

A Video Remote Control is a client that can control a Video Player, for example, a traditional universal remote control.

### 10.7.1. Revision History

| Revision | Description                   |
|----------|-------------------------------|
| 1        | Initial revision              |
| 2        | Added Content Control cluster |

### 10.7.2. Classification

| Device Type ID | Device Type Name     | Superset Of | Class  | Scope    |
|----------------|----------------------|-------------|--------|----------|
| 0x002A         | Video Remote Control |             | Simple | Endpoint |

### 10.7.3. Conditions

See the Base Device Type definition for additional conformance tags.

### 10.7.4. Cluster Requirements

Each endpoint supporting this device type SHALL include these clusters based on the conformance defined below.

| Cluster ID | Cluster Name  | Client/Server | Quality | Conformance |
|------------|---------------|---------------|---------|-------------|
| 0x0006     | On/Off        | Client        |         | M           |
| 0x0008     | Level Control | Client        |         | O           |
| 0x0503     | Wake On LAN   | Client        |         | O           |
