

Chapter 10. Electrical Measurement

Semantic Tag Namespace

This section contains the standard semantic tag namespace for electrical measurement as part of the semantic tag feature.

The tags contained in this namespace are restricted for use in the electrical measurement domain and SHALL NOT be used in any other domain or context.

ID	Namespace
0x0A	Electrical Measurement

The following tags are defined in this namespace.

ID	Name	Summary
0x00	DC	Indicates values measured for a DC load
0x01	AC	Indicates values measured for a single-phase AC load, or values measured for the collective load on a polyphase AC power supply
0x02	ACPhase1	Indicates values measured for an AC load on phase 1 of a polyphase power supply
0x03	ACPhase2	Indicates values measured for an AC load on phase 2 of a polyphase power supply
0x04	ACPhase3	Indicates values measured for an AC load on phase 3 of a polyphase power supply
