

6.4.2. Node Operational Credentials Management	389
6.4.3. Node Operational Identifier Composition	389
6.4.4. Node Operational Key Pair	390
6.4.5. Node Operational Credentials Certificates	390
6.4.6. Node Operational Credentials Procedure	392
6.4.7. Node Operational Certificate Signing Request (NOCSR)	394
6.4.8. Node Operational Certificate Renewal	395
6.4.9. Node Operational Certificate Revocation	395
6.4.10. Fabric Table Vendor ID Verification Procedure	395
6.4.11. Security Considerations	402
6.5. Operational Certificate Encoding	402
6.5.1. Introduction	402
6.5.2. Matter certificate	403
6.5.3. Version Number	404
6.5.4. Serial Number	404
6.5.5. Signature Algorithm	404
6.5.6. Issuer and Subject	405
6.5.7. Validity	411
6.5.8. Public Key Algorithm	411
6.5.9. EC Curve Identifier	411
6.5.10. Public Key	412
6.5.11. Extensions	412
6.5.12. Matter certificate Extensions Encoding Rules	416
6.5.13. Signature	417
6.5.14. Invalid Matter certificates	417
6.5.15. Examples	418
6.6. Access Control	426
6.6.1. Scope and Purpose	426
6.6.2. Model	426
6.6.3. Access Control List Examples	432
6.6.4. Access Control Cluster update side-effects	437
6.6.5. Access Control Cluster handling of Access Restrictions	438
6.6.6. Conceptual Access Control Privilege Granting Algorithm	443
6.6.7. Applying Privileges to Action Paths	450
7. Data Model Specification	453
7.1. Practical Information	453
7.1.1. Revision History	453
7.1.2. Scope & Purpose	453
7.1.3. Origin Story	453
7.1.4. Overview	454
7.1.5. Glossary	454
