11.23.7.1. VendorID

See [Section 11.23.6.1, “VendorID”](#).

11.23.7.2. ProductID

See [Section 11.23.6.2, “ProductID”](#).

11.23.7.3. SoftwareVersion

SoftwareVersion SHALL identify the software version number for the device model consistent with the value found in [Section 11.21.2.4.3, “SoftwareVersion field”](#). The SoftwareVersionNumber value SHOULD NOT be displayed to an end-user. SoftwareVersion is not editable, but it would be possible to create a new device model for the same VendorID/ProductID for different versions. Both SoftwareVersion and SoftwareVersionString SHALL be included. This field SHALL match the **Software-**
