5	OptionsOverride	Options-Bitmap	desc			M

3.2.8.21.1. MoveMode Field

This field SHALL indicate the mode of movement, as described in the [MoveHue](#) command.

3.2.8.21.2. Rate Field

This field SHALL indicate the rate of movement in steps per second. A step is a change in the color temperature of a device by one unit.

3.2.8.21.3. ColorTemperatureMinimumMireds Field

This field SHALL indicate a lower bound on the ColorTemperatureMireds attribute ($\equiv$ an upper bound on the color temperature in kelvins) for the current move operation such that:

$\text{ColorTempPhysicalMinMireds} \leq \text{ColorTemperatureMinimumMireds field} \leq \text{ColorTemperatureMireds}$

As such if the move operation takes the ColorTemperatureMireds attribute towards the value of the ColorTemperatureMinimumMireds field it SHALL be clipped so that the above invariant is satisfied. If the ColorTemperatureMinimumMireds field is set to 0, ColorTempPhysicalMinMireds SHALL be used as the lower bound for the ColorTemperatureMireds attribute.

3.2.8.21.4. ColorTemperatureMaximumMireds Field

This field SHALL indicate an upper bound on the ColorTemperatureMireds attribute ($\equiv$ a lower bound on the color temperature in kelvins) for the current move operation such that:

$\text{ColorTemperatureMireds} \leq \text{ColorTemperatureMaximumMireds field} \leq \text{ColorTempPhysicalMaxMireds}$

As such if the move operation takes the ColorTemperatureMireds attribute towards the value of the ColorTemperatureMaximumMireds field it SHALL be clipped so that the above invariant is satisfied. If the ColorTemperatureMaximumMireds field is set to 0, ColorTempPhysicalMaxMireds SHALL be used as the upper bound for the ColorTemperatureMireds attribute.
