

14.5. Heat Pump Device Type	183
14.5.1. Heat Pump Architecture	183
14.5.2. Revision History	183
14.5.3. Classification	184
14.5.4. Conditions	184
14.5.5. Cluster Requirements	184
14.5.6. Device Type Requirements	184
14.6. Meter Reference Point Device Type	187
14.6.1. Revision History	187
14.6.2. Classification	187
14.6.3. Conditions	187
14.6.4. Condition Requirements	187
14.6.5. Cluster Requirements	188
14.6.6. Device Type Requirements	188
14.6.7. Meter Reference Point Topology	188
14.7. Electrical Energy Tariff Device Type	193
14.7.1. Revision History	193
14.7.2. Classification	193
14.7.3. Conditions	193
14.7.4. Cluster Requirements	193
14.7.5. Element Requirements	193
14.7.6. Semantic Tag Requirements	194
14.8. Electrical Meter Device Type	194
14.8.1. Revision History	194
14.8.2. Classification	194
14.8.3. Device Type Requirements	194
14.8.4. Cluster Requirements	194
14.9. Electrical Utility Meter Device Type	195
14.9.1. Revision History	195
14.9.2. Classification	195
14.9.3. Conditions	195
14.9.4. Condition Requirements	195
14.9.5. Cluster Requirements	195
14.9.6. Electrical Utility Meter Topology	196
15. Network Infrastructure Device Types	201
15.1. Introduction	201
15.2. Common Requirements	201
15.2.1. Minimum Number of Devices to Support	201
15.3. Network Infrastructure Manager Device Type	201
15.3.1. Revision History	202
15.3.2. Classification	202
